Rubrica de participación

Clase de español * Sra. González

Students are expected to actively participate in class regularly. Participation is not only attending class, but also coming to class prepared, responding to and asking questions, working cooperatively with other students and remaining on task. In addition, participation includes a conscious effort to use Spanish as much as possible. The following is the rubric which will be used to calculate your participation grade biweekly. Participation comprises 10% of your final grade.

Uso de español	Calidad de participación	Atención	Preparación
